PROGRAMME REPORT

Name of the programme :	A One Day Workshop On Writing Research Proposal
Date of the programme:	03.11.2020
Resource person details :	Mr.D.N.Raju, Assoc.Prof, Shri Vishnu Engineering College for Women, Bhimavaram. Ph no: 9949072448 Mail id: dnrajuom@gmail.com
Program co-ordinator:	Mr .V.GANAPATHIRAM, Asst Prof HOD CSE DEPARTMENT, WISE ENGINEERING COLLEGE
Organized by :	DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
venue :	West Godavari Institute of Science and Engineering

OBJECTIVES OF THE PROGRAM

Writing the proposal of a research work in the present era is a challenging task due to the constantly evolving trends in the qualitative research design and the need to incorporate medical advances into the methodology. The proposal is a detailed plan or 'blueprint' for the intended study, and once it is completed, the research project should flow smoothly. Even today, many of the proposals at post-graduate evaluation committees and application proposals for funding are substandard. A search was conducted with keywords such as research proposal, writing proposal and qualitative using search engines, namely, Pub Med and Google Scholar, and an attempt has been made to provide broad guidelines for writing a scientifically appropriate research proposal.

Topics covered:

- Introduction and Review of Literature
- Aims and Objectives
- Research design and methods
- Ethical considerations
- Budget, Appendices and citations

WEST GODAVARI INSTITUTE OF SCIENCE AND ENGINEERING

(Approved by AICTE – New Delhi and Affiliated to JNTU – Kakinada)

An ISO 9001 – 2008 Certified College

AVAPADU, PRAKASARAOPALEM – 534112, Nallajerla Mandal, W.G. Dist. (A.P.)..

Cell : 9951277789, E-mail : principal.wise@gmail.com, website : www.wise.ac.in

OUTCOME OF THE PROGRAM:

This is where you wrap it all up. Your conclusion section, just like your conclusion paragraph for an essay, briefly summarizes your research proposal and reinforces your research's stated purpose. Successful, qualitative research proposals should communicate the researcher's knowledge of the field and method and convey the emergent nature of the qualitative design. The proposal should follow a discernible logic from the introduction to presentation of the appendices

Name of the programme :	A One Day seminar on “Research Trends In Engineering
Date of the programme:	17.11.2020
Resource person details :	Dr. M. ARAVIND KUMAR, Assoc_Proff Ph no: 8121703638 Mail id: drmaravindkumar@gmail.com
Program co-ordinator:	Mr .V.GANAPATHIRAM, Asst Prof HOD CSE DEPARTMENT, WISE ENGINEERING COLLEGE
Organized by :	DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
venue :	West Godavari Institute of Science and Engineering

OBJECTIVES OF THE PROGRAM

Engineering has been a renowned stream for a long time. It is ruling the world by providing real-time solutions to various problems. As a result, engineering has positive effects on the daily lives of people. Engineers utilize their knowledge of science, mathematics, logic, and experience to introduce innovations. The progressions are acknowledged as the recent trends in engineering. Many trends, including automation and Artificial Intelligence (AI), have influenced industries to change their working models.

Topics covered:

1. Artificial Intelligence
2. The Internet of Things (IoT)
3. Machine learning

Organized by :	DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
venue :	West Godavari Institute of Science and Engineering

OBJECTIVES OF THE PROGRAM

An environmental scanning is a strategic technique used to identify all internal and external factors that could affect a company's success. Internal components reveal the strengths and shortcomings of a company, while external components represent the opportunities and risks. This exists outside of the company.

Topics covered :

- SWOT
- Create effective strategies
- Anticipate change

PROGRAMME REPORT

Name of the programme :	A Seminar on Environmental analysis to Become an Independent Entrepreneur
Date of the programme:	25.11.2020
Resource person details :	Mr. K. Rama Krishna . 9440528855 ramakrishnak@gmail.com
Program co-ordinator:	V.SUBHASH CHANDRA BOSE MBA,
Organized by :	DEPARTMENT OF MANAGEMENT STUDIES
venue :	West Godavari Institute of Science and Engineering

OBJECTIVES OF THE PROGRAM

An environmental analysis is a strategic technique used to identify all internal and external factors that could affect a company's success. Internal components reveal the strengths and shortcomings of a company, while external components represent the opportunities and risks. This exists outside of the company.

Topics covered :

- Find opportunities
- Identify threats
- Create effective strategies
- Anticipate change

PROGRAMME REPORT

Name of the programme :	A One Day Work Shop On IPR Patent Rights
Date of the programme:	23.12.2020
Resource person details :	Dr. S. Rajya lakshmi Professor Adikavi nannayya university Rajahmahendravararam contact no; 9290402635 srlaku@gmail.com
Program co-ordinator:	Mr .V.GANAPATHIRAM, Asst Prof HOD CSE DEPARTMENT, WISE ENGINEERING COLLEGE
Organized by :	DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
venue :	West Godavari Institute of Science and Engineering

OBJECTIVES OF THE PROGRAM

A patent is a type of intellectual property that gives its owner the legal right to exclude others from making, using, or selling an invention for a limited period of time in exchange for publishing an enabling disclosure of the invention. In most countries, patent rights fall under private law and the patent holder must sue someone infringing the patent in order to enforce their rights. The procedure for granting patents, requirements placed on the patentee, and the extent of the exclusive rights vary widely between countries according to national laws and international agreements. Typically, however, a patent application must include one or more claims that define the scope of protection that is being sought. A patent may include many claims, each of which defines a specific property right.

AVAPADU, PRAKASARAOPALEM – 534112, Nallajerla Mandal, W.G. Dist. (A.P.)..

Cell : 9951277789, E-mail : principal.wise@gmail.com, website : www.wise.ac.in

OUTCOME OF THE PROGRAM:

Patent infringement occurs when a third party, without authorization from the patentee, makes, uses, or sells a patented invention. Patents, however, are enforced on a national basis. The making of an item in China, for example, that would infringe a US patent, would not constitute infringement under US patent law unless the item were imported into the US.

Cell : 9951277789, E-mail : principal.wise@gmail.com , website : www.wise.ac.in

OUTCOME OF THE PROGRAM:

ERP is an important business tool in any entrepreneurship. When an entrepreneur is coming up with new ideas, plans or innovation of any kind he must first understand if the environment is suitable for this. It helps him develop his creative ideas into actual products that can be offered in the market. So scanning the environment will help him gauge the acceptance of the product, and the opportunities and threats he may face.

PROGRAM OBJECTIVES :

Contemporary Approaches to Research in Learning Innovations explores approaches to research in learning innovations from the learning sciences view. Learning sciences is an interdisciplinary field that draws on multiple theoretical perspectives and research with the goal of advancing knowledge about how people learn.

OUTCOME OF THE PROGRAM:

Contemporary Approaches to Research in Learning Innovations covers research in developed and developing countries and scalable projects which will benefit everyday learning and universal education. Recent research includes improving social presence and interaction in collaborative learning, using epistemic games to foster new learning, and pedagogy and praxis of ICT integration in school curricula.

PROGRAMME REPORT

Name of the programme :	A one day work shop on intellectual property rights and innovations
Date of the programme:	08.03.2021.
Resource person details :	Dr.Karunakar Kavuri,Assoc_Prof Swarnandhra Institute of Engineering and Technology, Narasapuram. Ph no:9290121240 karunakarkavuri@gmail.com Mail id: dnrajuom@gmail.com
Program co-ordinator:	Mr .V.GANAPATHIRAM, Asst Prof HOD CSE DEPARTMENT, WISE ENGINEERING COLLEGE
Organized by :	DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
venue :	West Godavari Institute of Science and Engineering

OBJECTIVES OF THE PROGRAM

IPR provide certain exclusive rights to the inventors or creators of that property, in order to enable them to reap commercial benefits from their creative efforts or reputation. There are several types of intellectual property protection like patent, copyright, trademark, etc. which satisfies the criteria of global novelty, non-obviousness, and industrial application. IPR is prerequisite for better identification, planning, commercialization, rendering, and thereby protection of invention or creativity. Each industry should evolve its own IPR policies, management style, strategies, and so on depending on its area of specialty. Pharmaceutical industry currently has an evolving IPR strategy requiring a better focus and approach in the coming era.

OUTCOME OF THE PROGRAM:

Intellectual property (IP) pertains to any original creation of the human intellect such as artistic, literary, technical, or scientific creation. Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time. It is very well settled that IP play a vital role in the modern economy. It has also been conclusively established that the intellectual labor associated with the innovation should be given due importance so that public good emanates from it. There has been a quantum jump in research and development (R&D) costs with an associated jump in investments required for putting a new technology in the market place.
